CREA

A BATHROOM COLLECTION
WITH AMAZING POSSIBILITIES

CREA

A BATHROOM COLLECTION WITH AMAZING POSSIBILITIES

Crea is a unique collection of ceramics, furniture and bathtubs from Cersanit. Its design is modern, coherent across all the products and using new technology in poducts.

Thanks to the extensive choice in the range, there are many different ways of organising and customising our interiors.

This is the first collection from Cersanit to include the most fashionable of thin edge washbasins, moisture-resistant furniture and thin edge bathtubs, all intended for use with tiles.

CREA SETS THE STANDARDS FOR BEAUTY, MODERNITY AND INNOVATION.

DESIGN

THIN LINES AS SYMBOLS OF LIGHTNESS, ELEGANCE AND BEAUTY

CREA is distinct for its simple, elegant and pure geometrical shapes. All the categories share the same thin, subtle lines as a marker of this particular collection.

These lines can be seen throughout the collection: in the ceramics, the simple and distinct furniture, the toilet seats, as well as the thin edge of the bathtub. Maintaining such a coherent design gives a modern look to both small and large bathrooms.

A WIDE RANGE

The Crea collection includes:

- **16 ceramic products**
  Furniture washbasins, on a countertop washbasins, in a countertop washbasins; wall-hung bowls, compacts, bidets rectangular and oval; urinal

- **2 toilet seats**

- **25 furniture products**
  Washbasin cabinets, in/on a countertop washbasins cabinets and pillars – all elements available in three colour variants:
- White
- Oak
- Matte grey

- **6 different bathtubs**
  Rectangular and asymmetric bathtubs in different sizes

49 PRODUCTS IN TOTAL

FUNCTIONALITY

FREEDOM IN DESIGNING OUR BATHROOM

The collection allows us great freedom in planning by offering us a wide range of beautiful, modern products at affordable prices.

The broad range gives us great opportunities to creatively customise our interiors.

We can furnish our bathrooms to suit different purposes, atmospheres or colour schemes. The wide range of options allows us to play with colours, textures and forms.

FAMILY BATHROOMS
in warm shades of wood and grey, with lots of space for storing bathroom accessories.

BATHROOMS FOR SINGLES

BATHROOMS FOR THOSE SEEKING NATURAL MATERIALS

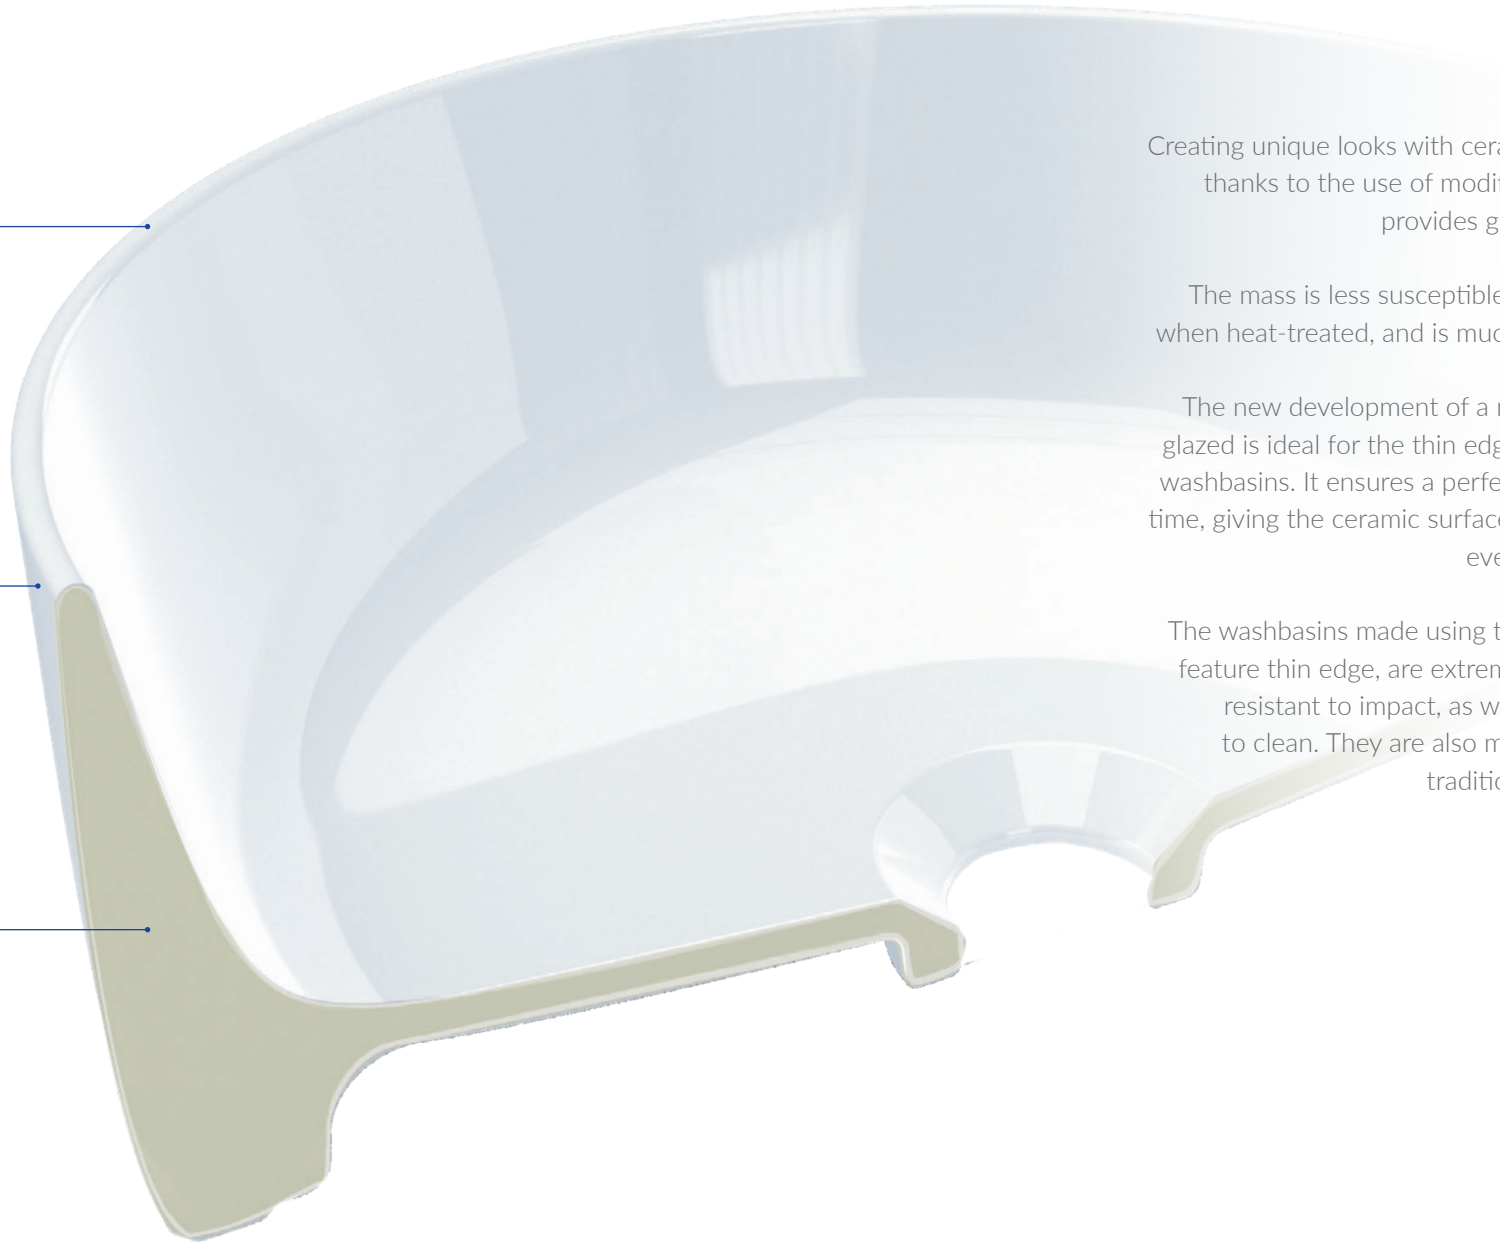
BATHROOMS FOR COUPLES

ADVANCED TECHNOLOGIES

ROCKLITE
INNOVATIVE WASHBASIN PRODUCTION

The innovative thin walled ceramic technology allows us to create beautiful, visually light products, which are still extremely durable. With this technology we can design products sporting unique features that would not be possible with traditional technologies.

ROCKLITE



THIN EDGE

MODIFIED GLAZE
suitable for the thin edges
of thin-walled washbasins

CERAMIC MASS
WITH INCREASED PROPERTIES

Creating unique looks with ceramics is possible thanks to the use of modified mass, which provides greater durability.

The mass is less susceptible to deformation when heat-treated, and is much more durable.

The new development of a modified type of glazed is ideal for the thin edge of thin-walled washbasins. It ensures a perfect coating every time, giving the ceramic surfaces a smooth and evenly white finish.

The washbasins made using the new material feature thin edge, are extremely durable and resistant to impact, as well as being easy to clean. They are also much lighter than traditional washbasins.

ADVANCED TECHNOLOGIES

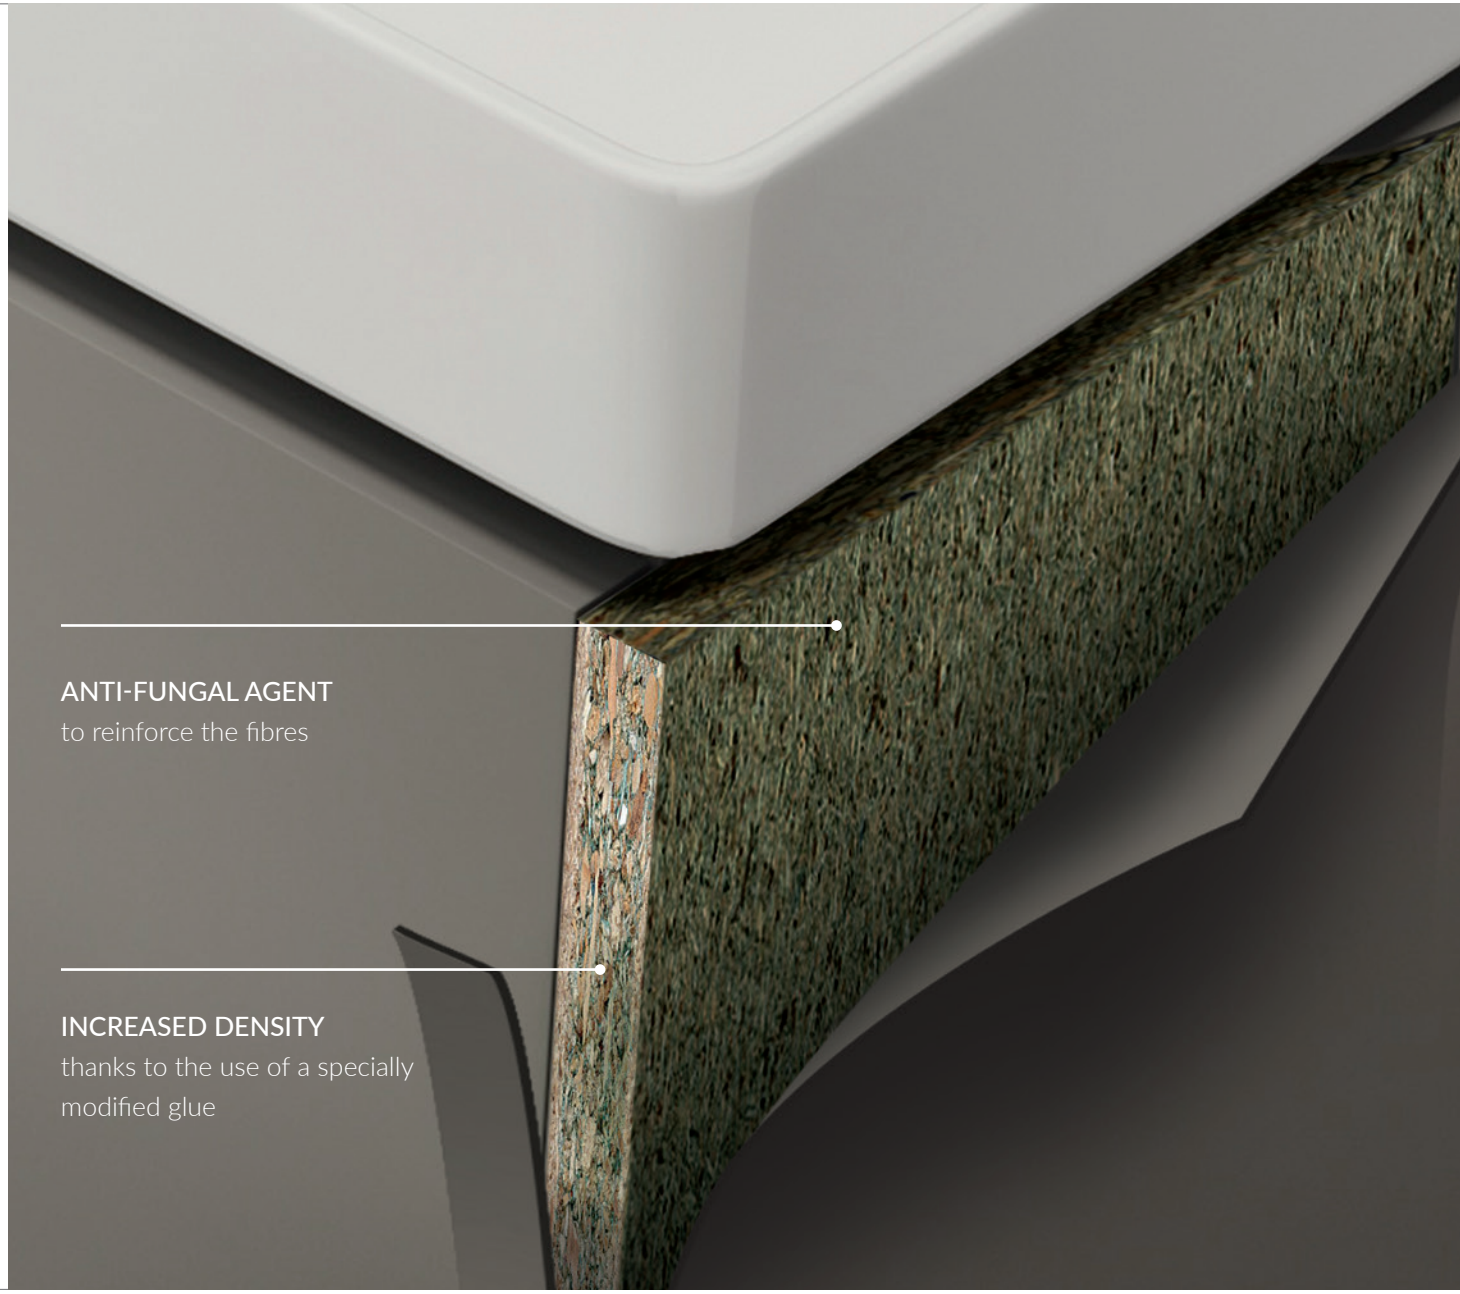
AQUASAFE

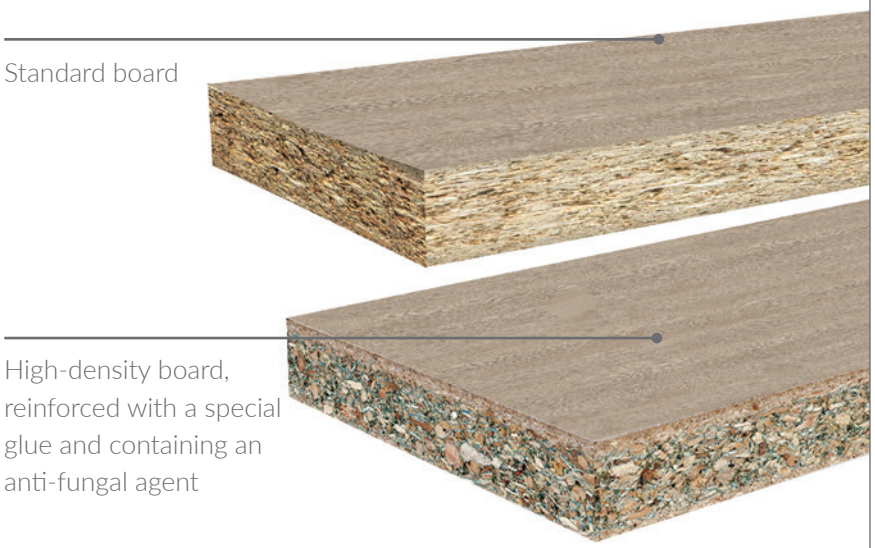
INCREASED MOISTURE RESISTANCE

The CREA line utilises the new AQUASAFE technology, making it resistant to the moisture commonly found in bathroom spaces.

AQUASAFE

AQUASAFE boards are denser than regular boards, with the fibres being filled with a moisture proofing agent featuring anti-fungal properties. AQUASAFE boards have better absorption and swelling properties than traditional boards.





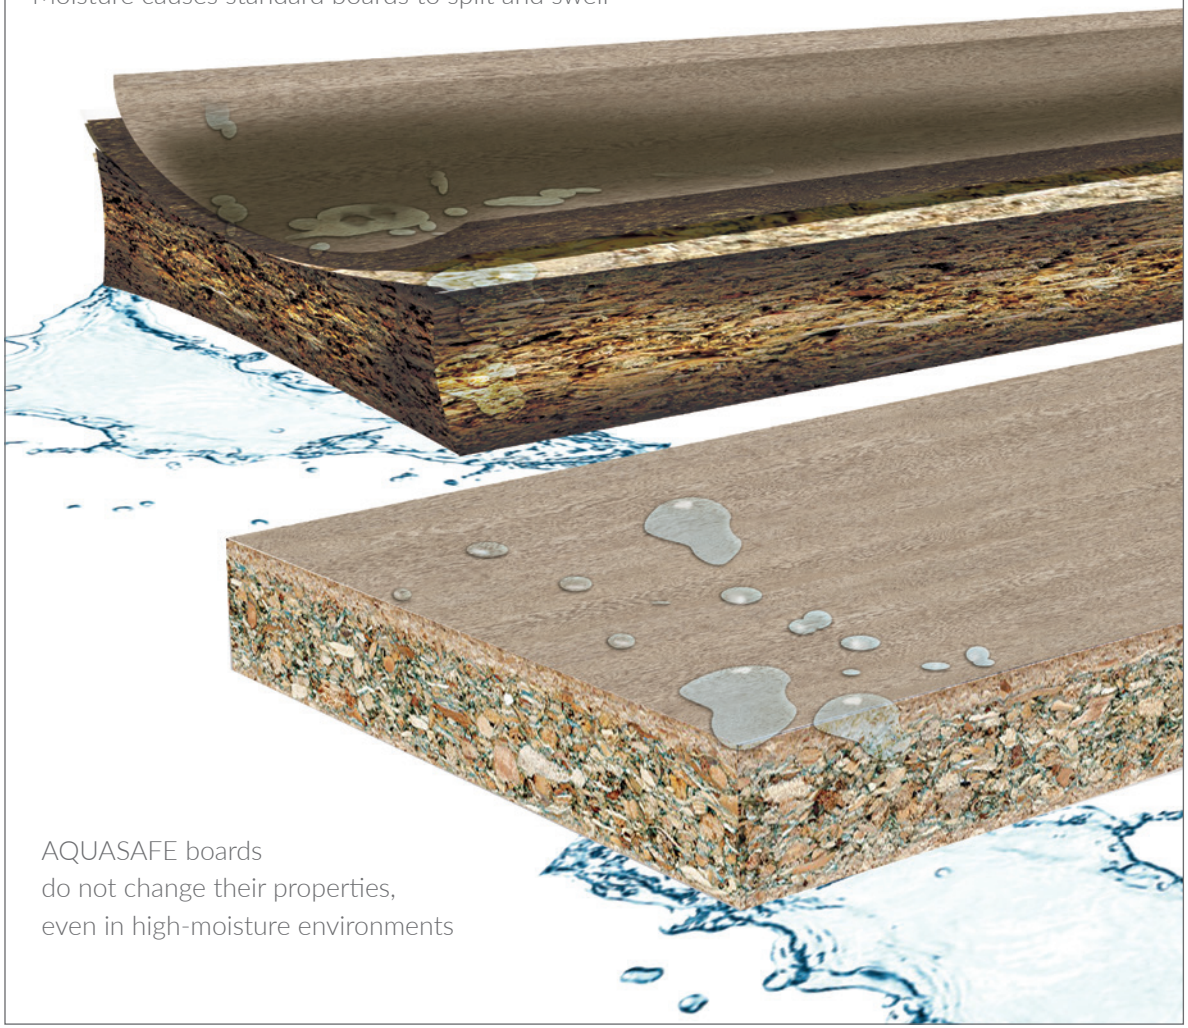
AQUASAFE

INCREASED MOISTURE RESISTANCE TECHNOLOGY

Compared with the materials used in traditional furniture, AQUASAFE boards do not split or swell when in contact with the moisture present in bathrooms. This makes them more durable and stronger, so that the furniture remains in perfect shape for years.

EFFECTS OF MOISTURE

Moisture causes standard boards to split and swell



AQUASAFE boards
do not change their properties,
even in high-moisture environments

CREA PRODUCTS AND THEIR BENEFITS

WASHBASINS

Washbasins warrant a special mention when it comes to CREA ceramics. They are made from a specially-modified ceramic composition ROCKLITE mass, which allows for a great deal of freedom when designing all kinds of shapes. Their edges are very thin and durable, elegant and practical. This collection includes a wide range of washbasins using this new technology:

- On a countertop
- In a countertop
- Furniture – wide range of sizes: from 40 to 100 cm

WASHBASINS

Furniture washbasins in large sizes (80 and 100 cm) feature convenient support surfaces for bathroom accessories.

Also worth a mention is the new type of rectangular overflow.

WIDE SUPPORT SURFACES

Additional space for all the necessary things that we need within easy reach. This keeps our bathroom convenient and highly organised.

RECTANGULAR OVERFLOW

The new, rectangular shape suits the design of the rest of the collection perfectly.

WC, BIDETS AND URINALS

The CREA line offers two types of design for wall-hung bowls, compacts and bidets. Depending on our preferences and type of interior, we can select either the rectangular or oval variant. The bowls and compacts technology the same rimless

CleanOn technology, making them easier to clean. Another advantage of wall-hung bowls and bidets is their hidden fixation, which makes installing them easier and improves the finished look.

The rimless urinal is a novelty in Cersanit offer.

TOILET SEATS

We offer antibacterial seats made especially for wall-hung bowls and compacts – our SLIM seats use the latest available solutions.

ONE BUTTON EASY OFF

The sheer practicality of having a quick and easily removed seat makes cleaning our toilets simple and less time-consuming.

SOFT CLOSING SEAT

Increased convenience. These seats are silent, safe and less susceptible to mechanical damage.

BATHROOM FURNITURE

QUALITY AND AESTHETICS

All types of furniture in the CREA line utilise the AQUASAFE technology, ensuring resistance to moisture to guarantee the high quality and durability of the products.

The washbasin cabinets and pillars are equipped with an ergonomic, handle-less opening system. The large, convenient drawers, which are also fully extendable, make storing bathroom accessories easier. Also available is a white open pillar.

BATHROOM FURNITURE

QUALITY AND AESTHETICS

The insides of our furniture have a grey linen colour, while the exteriors come in three different colour variants:

- Glossy white finish
- Oak
- Matte grey

Our washbasin cabinets are available in many sizes, suitable for both large and small bathrooms.

BATHTUBS

A MODERN TAKE ON RELAXATION.

Crea offers a wide range of bathtubs in various shapes and sizes. This allows us to design our bathroom regardless of its size and our preferences, ensuring that it meets our needs.

Features of CREA bathtubs:

- **the exceptionally thin edge is ideal for tiles; thanks to it, the entire enclosure creates a uniform, modern and elegant form with the bathtub**
- **greater depth of bathtub and ergonomic profiling guarantee comfort and convenience of bathing**
- **modern design at affordable prices**
- **classic, geometrical shape, matching those of the ceramics perfectly**

BATHTUBS

A MODERN TAKE ON RELAXATION

Crea bathrooms are distinct for their:

- **Increased durability – 4 mm-thick acrylic board**
- **Very thin edges**
- **Increased depth of the tub – up to 47.5 cm**
- **Increased depth before overflow hole 40 cm**
- **a wide bath edge (8.5 cm) makes it possible to mount a bathtub tap**
